Innovation Through Colours

Sharing knowledge of new processes and new colours that help our customers stay at the cutting edge of their industries.

Orio Colour can produce an infinite number of shades in powder and liquid forms, as well as colours dispersed onto specific substrates.

New vibrant colours & solutions to meet your needs and market trends!

Product awareness, design and legislation:

- Advice on improving your product design to get maximum performance and ensuring that you meet local and global requirements

The right colour for the right application with the most powerful colouring power:

- Bespoke colour designed for you with our technical team.
- Right fineness of our products made in the factory.
- No streaking and specking in final products & reduce the complexity to use colours in your factory.

Sampling & production trials:

- Aid in scaling up from lab to factory.
- Production optimisation and improvements.

Blending

Bespoke colours :

In our colour laboratories we can create custom colours & specific shades to match your requirements.

Colour/particle size controls and Micro testing are performed when required.

Powder:

- **Compounding with your ingredients** - Handling powders can sometimes cause contamination problems. We can blend the powdered colours with your primary ingredients to help solve this problem.
- **Speckfree colours** - Synthetic dyes specially blended to eliminate specking.
- **Water soluble colours**

Liquid:

- **Compounding with your ingredients** - Handling liquids can sometimes cause dosing problems. Real Colour can blend the liquid colours with your primary ingredients to help solve this problem.
